

# JALTECH'S CRYPTOCURRENCY BASKET

**INVEST WITH A FUND MANAGER WHO  
SELECTS AND MANAGES A BASKET OF  
CRYPTOCURRENCIES ON YOUR BEHALF**

Jaltech offers investors effortless and convenient exposure to a basket of cryptocurrencies which is selected and managed by a team of cryptocurrency experts.

The basket provides investors with a managed cryptocurrency investment whereby cryptocurrencies will be included or excluded from the basket based on the movements and developments in the market. The inclusion or exclusion of a cryptocurrency(ies) is assessed against a clear set of criteria established by Jaltech's team of cryptocurrency experts.

Jaltech expects that the criteria will result in investors gaining exposure to the top-performing cryptocurrencies as the basket will include and exclude cryptocurrencies over time, thus attempting to ensure that only the high growth and relatively lower volatility cryptocurrencies remain in the basket.

## INVESTMENT HIGHLIGHTS

- » Minimum investment R50 000\*
- » A managed cryptocurrency investment
- » Diversification across large cap cryptocurrencies
- » No minimum investment term
- » Redeemable within 3 business day's notice
- » Institutional grade storage
- » Daily pricing

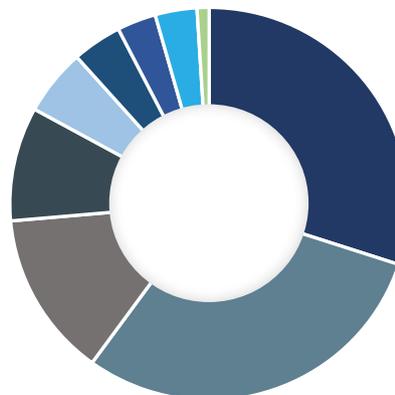

## OUR INVESTMENT CRITERIA AIM TO FILTER OUT CRYPTOCURRENCIES WHICH:

- » have a low market cap
- » aren't decentralised enough or have known security issues
- » haven't reached a significant scale
- » don't meet Jaltech's liquidity requirements
- » aren't traded across multiple exchanges
- » cannot be stored in Jaltech's secure digital vault

## JALTECH'S CRYPTOCURRENCY BASKET

JALTECH OFFERS INVESTORS DIVERSIFIED CRYPTOCURRENCY EXPOSURE

# WHAT'S IN THE BASKET

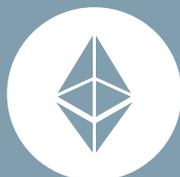

Bitcoin is a decentralized digital currency, without a central bank or single administrator. Transactions are sent directly from user to user via the bitcoin network without the need for intermediaries.

Never been below **200-week** average price

**R1,060,000** all-time high

5-year return **4,068%**

Ethereum is a blockchain platform with the ability to host decentralized applications. Ethereum supports the largest number of second layer applications and shows the highest amount of developer activity.

**300+ new developers** per month

**1.1+ million** trades per day

5-year return **24,679%**

Aave is a decentralized automated lending market that allows users to lend, borrow and earn interest on crypto assets, without any middlemen.

Highest market cap **\$8.06 Billion**

**\$24 Billion** in deposits

AAVE token holders **have voting rights**

Chainlink is an oracle network built on Ethereum. Oracles take attestations of real-world data and commits that data to smart contracts. Chainlink facilitates the transfer of tamper-proof data from off-chain sources to on-chain smart contracts.

Highest market cap **\$21.87 Billion**

Official **Google Cloud partner**

3-year return **4,105%**

Uniswap is a decentralized swap market that is used to exchange cryptocurrencies. The protocol facilitates exchanges between cryptocurrencies using smart contracts running off the Ethereum blockchain.

Highest market cap **\$22.59 Billion**

Over **\$807 Billion** in trade volume

**4,400+** community delegates

Polkadot is a protocol that connects blockchains — allowing value and data to be sent across previously incompatible networks. It's designed to be fast, scalable and compatible as a web3 platform.

**1500+** active validators

**Whitepaper published** by Ethereum's co-founder

**635% return** since launch

Solana is a blockchain platform designed to host decentralized, scalable applications. Solana can process many more transactions per second, and has much lower transaction fees, than rival blockchains like Ethereum.

Highest market cap **\$77.99 Billion**

**R3 896.89** all-time high

8-month return **191%**

Polygon is the first well-structured, easy-to-use platform for Ethereum scaling and infrastructure development. Its core component is Polygon SDK, a modular, flexible framework that supports building multiple types of applications.

Highest market cap **\$20.41 Billion**

**Zk-rollup tech** aggregates transactions improving scalability

1-year return **1,475%**

Litecoin is a peer-to-peer cryptocurrency and open-source software project. Like Bitcoin, Litecoin is based on an open-source global payment network that is not controlled by any central authority.

**Created by** ex-Google engineer

**Early fork** of the Bitcoin source code

5-year return **3,511%**

The above information is as at February 2022

## JALTECH VS COMPETITORS

	Jaltech	Competitors	Comments
Managed investment	✓	✗	Jaltech's basket is a managed solution that includes or excludes cryptos based on market conditions vs focusing or being limited to the top 10 cryptos only.
Not heavily weighted towards one crypto	✓	✗	Competing baskets are weighted (up to 80%) towards Ether and Bitcoin.
Not limited to the top 10 cryptos	✓	✗	Jaltech's evaluates the entire crypto market for inclusion.
Risk mitigation - meme coins	✓	✗	Jaltech selects assets based on strict criteria which filters out illiquid or unsustainable coins/tokens e.g. Meme coins.
No password required	✓	✗	The investment is administered by Jaltech and can be accessed easily by the investor.
Legislative protection	✓	✗	The investment is wrapped in a debenture issued by a public company and governed by the Companies Act.

## FEES

Fee	Basket
Subscription/redemption	0.5% per event
Annual fee	1.5%
Performance fee	20% above a hurdle of 10% p.a
Rebalancing fee	N/A

Jaltech's Cryptocurrency Basket is managed by a team of cryptocurrency experts who monitor developments and the movement of the market on a daily basis. Based on these movements and a criterion that our cryptocurrency experts have created, the basket of cryptocurrencies will likely change over time. As a performance incentive to ensure that only the top-performing and sustainable cryptocurrencies remain in the basket, Jaltech's performance fee is charged only if a hurdle of 10% p.a is exceeded. For the avoidance of doubt, if an initial investment of R100 grows to R150 in a year, a performance fee will be earned only on the growth above R110.
