ANCHOR FUND

## INFINITY ANCHOR FUND

Infinity Anchor Fund offers investors stable semi-annual dividend income backed by high-quality rental assets.

## INTRODUCTION

Infinity Anchor Fund Ltd is an approved Section 12J Venture Capital Company and was established to cater to investors who seek consistent and attractive semi-annual dividend returns.

Infinity Anchor Fund aims to provide investors with stable dividend income through investing in asset-backed rental SMEs and similar businesses with contractual revenue streams. In order to provide investors with an added layer of protection, Infinity Anchor Fund will aim to structure investments to ensure that each investment is underpinned by a credit enhancement such as a guaranteed annual return or a first loss protection.

This investment strategy forms part of Infinity Anchor Fund's mandate to ensure capital preservation and to provide access to stable returns which are underpinned by performing businesses.

Infinity Anchor Fund, unlike most Section 12J Venture Capital Companies provides a clear exit mechanism through the disposal of the investee company's existing asset rental book and/or disposal of equity in the investee companies.

(Aim to invest within 9 months from capital raise)

### INDICATIVE RETURNS OF 20% P.A. NET OF FEES & TAXES

## ABOUT SECTION 12J

Treasury is incentivising South African taxpayers to invest in the local economy, via a tax credit on the investment amount provided the investment is made into an approved Section 12J Venture Capital Company, such as the Infinity Anchor Fund. The benefit to the investor for making the investment in the Infinity Anchor Fund, is tax credit on the full amount invested and a return generated on the full investment.

DESCRIPTION	INDIVIDUAL / TRUST	CORPORATE
Initial Investment	R1 000 000	R1 000 000
Maximum Tax Relief	(R450 000)*	(R280 000)
Net investment (Risk Capital)	R550 000	R720 000

\*If an investor (an individual in the highest tax bracket) invests R1 000 000 in the Infinity Anchor Fund, the investor will receive tax credit of up to R450 000 at the end of the tax year. What this means is that an investor will receive a return on 100% of their investment but only have exposure of 55% of their original investment amount.
